

**UNITED STATES DISTRICT COURT  
SOUTHERN DISTRICT OF NEW YORK**

DAWN VAN DER STEEG, on behalf of  
herself and all others similarly situated,

Plaintiff,

v.

PRESTIGE CONSUMER HEALTH INC.,

Defendant.

Case No.

**CLASS ACTION COMPLAINT**

**JURY TRIAL DEMANDED**

Plaintiff Dawn Van der Steeg (“Plaintiff”) brings this action on behalf of herself and all others similarly situated against Defendant Prestige Consumer Health Inc. (“Prestige” or “Defendant”). Plaintiff makes the following allegations pursuant to the investigation of her counsel and based upon information and belief, except as to the allegations specifically pertaining to herself, which are based on personal knowledge.

**NATURE OF THE ACTION AND FACTS COMMON TO ALL CLAIMS**

1. This is a class action lawsuit regarding Defendant’s manufacturing, distribution, and sale of Summer’s Eve deodorant spray products (the “Products”) that contain dangerously high levels of benzene, a carcinogenic impurity that has been linked to leukemia and other cancers.

2. Summer’s Eve is a brand of deodorant body sprays manufactured, distributed, and sold by Defendant. The Summer’s Eve Products discussed herein contain benzene, a carcinogenic chemical impurity that has been linked to leukemia and other cancers. The Products are not designed to contain benzene, and in fact no amount of benzene is acceptable in deodorant body sprays such as the Products manufactured by Defendant. The presence of

benzene in the Products renders them adulterated and misbranded, and therefore illegal to sell under both federal and state law. As a result, the Products are unsafe and illegal to sell under federal law, and therefore worthless. *See* 21 U.S.C. §§ 331(a), 352; *see also Debernardis v. IQ Formulations, LLC*, 942 F.3d 1076, 1085 (11th Cir. 2019); *In re Valsartan, Losartan, & Irbesartan Prod. Liab. Litig.*, 2021 WL 222776, at \*16 (D.N.J. Jan. 22, 2021).

3. Benzene is a component of crude oil, gasoline, and cigarette smoke, and is one of the elementary petrochemicals. The Department of Health and Human Services has determined that benzene causes cancer in humans. Likewise, the Food and Drug Administration (“FDA”) lists benzene as a “Class 1 solvent” that “should not be employed in the manufacture of drug substances, excipients, and drug products because of [its] unacceptable toxicity.” Benzene is associated with blood cancers such as leukemia.<sup>1</sup> A study from 1939 on benzene stated that “exposure over a long period of time to any concentration of benzene greater than zero is not safe,”<sup>2</sup> which is a comment reiterated in a 2010 review of benzene research specifically stating: “There is probably no safe level of exposure to benzene, and all exposures constitute some risk in a linear, if not supralinear, and additive fashion.”<sup>3</sup>

4. According to the American Cancer Society:

IARC classifies benzene as “carcinogenic to humans,” based on sufficient evidence that benzene causes acute myeloid leukemia (AML). IARC also notes that benzene exposure has been linked with acute

lymphocytic leukemia (ALL), chronic lymphocytic leukemia (CLL), multiple myeloma, and non-Hodgkin lymphoma.<sup>4</sup>

5. Moreover, “[d]irect exposure of the eyes, skin, or lungs to benzene can cause tissue injury and irritation.”<sup>5</sup>

6. According to the National Institute for Occupational Safety and Health, humans can become exposed to benzene through “inhalation, skin absorption, ingestion, skin and/or eye contact.”<sup>6</sup> Skin absorption is particularly concerning as there have been multiple FDA studies showing that structurally similar chemicals in sunscreen products are found in the blood at high levels after application to exposed skin.

7. On November 3, 2021, Valisure, an online pharmacy registered with the FDA, “detected high levels of benzene and other contaminants in specific batches of body spray products, some of which contain active pharmaceutical ingredients aluminum chlorohydrate or aluminum sesquichlorohydrate.”<sup>7</sup>

8. Valisure tested the Products manufactured by Defendant, which were found to contain as much as 1.89 parts per million of benzene<sup>8</sup>:

<sup>8</sup> *Id.* at 13-14.

Brand	UPC	Lot	Expiration	Description	Average ppm
Summer's Eve	041608001310	21188A	Unknown	Ultra Freshening Spray, 5in1	1.89
Summer's Eve	041608001310	21207A	Unknown	Ultra Freshening Spray, 5in1	0.87

9. The FDA does state that if the use of benzene is “unavoidable in order to produce a drug product with a significant therapeutic advance,” then the drug product may contain up to 2 ppm of benzene.<sup>9</sup> However, according to Valisure, “[b]ecause many of the body spray products Valisure tested did not contain detectable levels of benzene, it does not appear that benzene use is unavoidable for their manufacture, and considering the long history and widespread use of these products, it also does not appear that they currently constitute a significant therapeutic advance.”<sup>10</sup> Accordingly, any level of benzene in Defendant’s Products is unacceptable and therefore renders the Products adulterated, misbranded, unsafe, and worthless.

10. Defendant did not disclose the actual or potential presence of benzene in its deodorant products on the Products’ labeling, or in any advertising or website promoting the Products. Defendant did not disclose the presence of benzene in the Products to Plaintiff or Class members at the point of sale or at any time before the point of sale.

11. Deodorant body sprays are considered cosmetics that are regulated by the United States Food & Drug Administration (“FDA”) pursuant to the federal Food, Drug and Cosmetics

---

<sup>9</sup> *Id.* at 1 (emphasis added).

<sup>10</sup> *Id.* at 1-2.

Act (“FDCA”), 21 U.S.C. § 301 *et seq.*, as well as analogous state statutes and regulations. The FDCA “prohibits the distribution of cosmetics which are adulterated or misbranded. A cosmetic is considered adulterated **if it contains a substance which may make the product harmful to consumers under customary conditions of use.**”<sup>11</sup> 21 U.S.C. § 361.

12. Further, as cosmetics regulated by the FDA, the Products must “bear a warning statement whenever necessary or appropriate to prevent a health hazard that may be associated with the product.” 21 C.F.R. § 740.1(a).

13. Defendant disregarded the regulations outlined above. As a manufacturer, distributor, and seller of a cosmetics product, Defendant had and has a duty to ensure that its Products did not contain excessive (or any) levels of benzene, including through regular testing. But based on Valisure’s testing results set forth above, Defendant made no reasonable effort to test its Products for benzene or other impurities. Nor did it disclose to Plaintiff or any other consumers in any product advertising, labeling, packaging, or marketing that its deodorant products contained benzene, let alone at levels in certain Products that are many multiples of the emergency, interim limit set by the FDA. To the contrary, Defendant represented and warranted, expressly and impliedly, that the Products were of merchantable quality, complied with federal and state law, and did not contain carcinogens, reproductive toxins, or other impurities such as benzene.

14. If Defendant had fulfilled its quality assurance obligations, Defendant would have identified the presence of the benzene contaminant almost immediately.

---

<sup>11</sup> <https://www.fda.gov/cosmetics/cosmetics-labeling-regulations/summary-cosmetics-labeling-requirements#Adulterated> (emphasis added).

15. Further, had Defendant adequately tested its Products for benzene and other carcinogens, reproductive toxins, and impurities, it would have discovered that its Products contained benzene at levels above the FDA's limit (to the extent even applicable), making those products ineligible for distribution, marketing, and sale.

16. Accordingly, Defendant knowingly, or at least negligently, introduced contaminated, adulterated, and/or misbranded Products containing dangerous amounts of benzene into the U.S. market.

17. Defendant also knew or should have known about the carcinogenic potential of benzene because it is classified as a Group 1 compound by the World Health Organization and the International Agency for Research on Cancer, meaning that it is "carcinogenic to humans."

18. The presence of benzene renders the Products both adulterated and misbranded under the FDCA because benzene is a substance that makes the Products harmful to consumers under customary conditions of use.

19. Further, the Products are misbranded because their labeling is "false" and "misleading" because it does not disclose the presence of benzene, even though a warning statement concerning benzene is necessary or appropriate to prevent a health hazard. 21 C.F.R. § 740.1(a).

20. Under federal law, a product that is "adulterated" or "misbranded" cannot legally be manufactured, advertised, distributed, or sold. 21 U.S.C. § 331(a). Adulterated and misbranded products thus have no economic value and are legally worthless.

21. When Plaintiff purchased Defendant's Products, Plaintiff did not know, and had no reason to know, that Defendant's Products were adulterated and misbranded and thus unlawful to sell or purchase as set forth herein. Not only would Plaintiff not have purchased

Defendant's Products at all had she known the Products contained benzene, she would not have been capable of purchasing them if Defendant had done as the law required and tested those products for benzene and other carcinogens, reproductive toxins, and impurities.

22. Moreover, no reasonable consumer would have paid any amount for products containing benzene, a known carcinogen and reproductive toxin, much less above the limits set by the FDA (even assuming those allowances apply to Defendant's products).

23. Thus, if Plaintiff and Class members had been informed that Defendant's Products contained or may contain benzene, they would not have purchased or used the Products at all, or would have paid significantly less for the Products, making such omitted facts material to them.

24. Plaintiff and Class members were injured by the full purchase price of the Products because the Products are worthless, as they are adulterated and contain harmful levels of benzene, and Defendant has failed to warn consumers of this fact. Such illegally sold products are worthless and have no value. *See Debernardis v. IQ Formulations, LLC*, 942 F.3d 1076, 1085 (11th Cir. 2019); *see also In re Valsartan, Losartan, & Irbesartan Prod. Liab. Litig.*, 2021 WL 222776, at \*16 (D.N.J. Jan. 22, 2021) ("This Court finds that contaminated drugs are economically worthless at the point of sale by virtue of the dangerousness caused by their contamination, regardless whether the sold VCDs actually achieved the medical purpose of lowering blood pressure. Put differently, contaminated drugs, even if medically efficacious for their purpose, cannot create a benefit of the bargain because the contaminants, and their dangerous effects, were never bargained for.").

25. Plaintiff and Class members bargained for deodorant products free of contaminants and dangerous substances, and were deprived the basis of their bargain when

Defendant sold them products containing the dangerous substance benzene, which rendered the Products unmerchantable and unfit for use.

26. Plaintiff and Class members are further entitled to damages for the monies paid to purchase the Products, statutory and punitive damages, attorneys' fees and costs, and injunctive relief.

27. Plaintiff brings this action on behalf of herself and the Class for equitable relief and to recover damages and restitution for: (i) breach of express warranty; (ii) breach of implied warranty; (iii) violation of New York General Business Law ("GBL") § 349; (iv) violation of GBL § 350; (v) violation of Florida's Deceptive and Unfair Trade Practices Act ("FDUTPA"), Fla. Stat. §§ 501.201 *et seq.*; (vi) fraud; and (vii) unjust enrichment.

### **PARTIES**

28. Plaintiff Dawn Van der Steeg is a resident of Davie, Florida and has an intent to remain there, and is therefore a domiciliary of Florida. In or about May 2021, Ms. Van der Steeg purchased a canister of Defendant's "Summer's Eve Ultra Freshening Spray, 5in1" from a Target in Davie. When purchasing the Summer's Eve Product, Ms. Van der Steeg reviewed the accompanying labels and disclosures, and understood them as representations and warranties by the manufacturer that the Summer's Eve Product was properly manufactured, free from defects, safe for its intended use, not adulterated or misbranded, and legal to sell. Ms. Van der Steeg relied on these representations and warranties in deciding to purchase the Summer's Eve Product manufactured by Defendant, and these representations and warranties were part of the basis of the bargain, in that she would not have purchased the Summer's Eve Product from Defendant if she had known that it was not, in fact, properly manufactured, free from defects, safe for its intended use, adulterated and misbranded, and legal to sell. Plaintiff's Summer's Eve Product

was contaminated with benzene, therefore rendering it improperly manufactured, defective, not safe for its intended use, adulterated and misbranded, and illegal to sell.

29. Defendant Prestige Consumer Health Inc. is a New York corporation with its headquarters at 660 White Plains Rd., Suite 250 Tarrytown, NY 10591. Prestige distributes the Products throughout the United States and the State of New York. The Summer's Eve Products, including the adulterated Summer's Eve Products purchased by Plaintiff and members of the putative Classes, are available at retail stores throughout New York and the United States.

### **JURISDICTION AND VENUE**

30. This Court has subject matter jurisdiction over this action pursuant to 28 U.S.C. § 1332(d)(2)(A), as modified by the Class Action Fairness Act of 2005, because at least one member of the Class, as defined below, is a citizen of a different state than Defendant, there are more than 100 members of the Class, and the aggregate amount in controversy exceeds \$5,000,000 exclusive of interest and costs.

31. This Court has personal jurisdiction over Defendant because Defendant is incorporated and maintains its principal place of business in this District.

32. Venue is proper in this Court pursuant to 28 U.S.C. § 1391(b) because Defendant resides in this District.

### **CLASS ACTION ALLEGATIONS**

33. Plaintiff seeks to represent a class defined as all persons in the United States who purchased the Products (the "Class").

34. Plaintiff also seeks to represent a subclass of all Class members who purchased the Products in Florida (the "Subclass").

35. The Class and Subclass are collectively referred to as the "Classes."

36. Subject to additional information obtained through further investigation and discovery, the foregoing definitions of the Classes may be expanded or narrowed by amendment to the complaint or narrowed at class certification.

37. Specifically excluded from the Classes are Defendant, Defendant's officers, directors, agents, trustees, parents, children, corporations, trusts, representatives, employees, principals, servants, partners, joint ventures, or entities controlled by Defendant, and its heirs, successors, assigns, or other persons or entities related to or affiliated with Defendant and/or Defendant's officers and/or directors, the judge assigned to this action, and any member of the judge's immediate family.

38. **Numerosity.** The members of the proposed Classes are geographically dispersed throughout the United States and are so numerous that individual joinder is impracticable. Upon information and belief, Plaintiff reasonably estimates that there are hundreds of thousands of individuals that are members of the proposed Classes. Although the precise number of proposed members are unknown to Plaintiff, the true number of members of the Classes are known by Defendant. Members of the Classes may be notified of the pendency of this action by mail and/or publication through the distribution records of Defendant and third-party retailers and vendors.

39. **Typicality.** The claims of the representative Plaintiff are typical of the claims of the Classes in that the representative Plaintiff, like all members of the Classes, purchased the Products, which were worthless due to the presence of benzene, a harmful and carcinogenic chemical impurity. The representative Plaintiff has been damaged by Defendant's misconduct in the very same way as the members of the Classes. Further, the factual bases of Defendant's

misconduct are common to all members of the Classes and represent a common thread of misconduct resulting in injury to all members of the Classes.

40. **Existence and predominance of common questions of law and fact.** Common questions of law and fact exist as to all members of the Classes and predominate over any questions affecting only individual members of the Classes. These common legal and factual questions include, but are not limited to, the following:

- (a) whether the Products manufactured by Defendant contain dangerously high levels of benzene, thereby breaching the express and implied warranties made by Defendant and making the Products unfit for human use and therefore unfit for their intended purpose;
- (b) whether Defendant knew or should have known the Products contained elevated levels of benzene prior to selling them, thereby constituting fraud and/or fraudulent concealment;
- (c) whether Defendant is liable to Plaintiff and the Classes for unjust enrichment;
- (d) whether Defendant is liable to Plaintiff and the Classes for fraud;
- (e) whether Plaintiff and the Classes have sustained monetary loss and the proper measure of that loss;
- (f) whether Plaintiff and the Classes are entitled to declaratory and injunctive relief;
- (g) whether Plaintiff and the Classes are entitled to restitution and disgorgement from Defendant; and

- (h) whether the marketing, advertising, packaging, labeling, and other promotional materials for the Products are deceptive.

41. **Adequacy of Representation.** Plaintiff will fairly and adequately protect the interests of the Classes. Plaintiff has retained counsel who are highly experienced in complex consumer class action litigation, and Plaintiff intends to vigorously prosecute this action on behalf of the Classes. Plaintiff has no interests that are anSummer's Eveonistic to those of the Classes.

42. **Superiority.** A class action is superior to all other available means for the fair and efficient adjudication of this controversy. The damages or other financial detriment suffered by members of the Classes are relatively small compared to the burden and expense of individual litigation of their claims against Defendant. It would, thus, be virtually impossible for members of the Classes, on an individual basis, to obtain effective redress for the wrongs committed against them. Furthermore, even if members of the Classes could afford such individualized litigation, the court system could not. Individualized litigation would create the danger of inconsistent or contradictory judgments arising from the same set of facts. Individualized litigation would also increase the delay and expense to all parties and the court system from the issues raised by this action. By contrast, the class action device provides the benefits of adjudication of these issues in a single proceeding, economies of scale, and comprehensive supervision by a single court, and presents no unusual management difficulties under the circumstances.

43. In the alternative, the Classes may be certified because:

- (a) the prosecution of separate actions by individual members of the Classes would create a risk of inconsistent or varying adjudication with respect to individual members of the Classes that would establish incompatible standards of conduct for the Defendant;

- (b) the prosecution of separate actions by individual members of the Classes would create a risk of adjudications with respect to them that would, as a practical matter, be dispositive of the interests of other members of the Classes not parties to the adjudications, or substantially impair or impede their ability to protect their interests; and/or
- (c) Defendant has acted or refused to act on grounds generally applicable to the Classes as a whole, thereby making appropriate final declaratory and/or injunctive relief with respect to the members of the Class as a whole.

### **CAUSES OF ACTION**

#### **COUNT I**

#### **Breach Of Express Warranty**

44. Plaintiff incorporates by reference and re-alleges each and every allegation set forth in paragraphs 1-43 above as though fully set forth herein.

45. Plaintiff brings this claim individually and behalf of the members of the proposed Classes against Defendant.

46. In connection with the sale of the Products, Defendant, as the designer, manufacturer, marketer, distributor, and/or seller issued written warranties by representing that the Products were deodorants that contained only those active and inactive ingredients listed on the Products' labels. Those active and inactive ingredients do not include benzene, a known human carcinogen dangerous to humans.

47. As a direct and proximate cause of Defendant's breach of express warranty, Plaintiff and the Classes have been injured and harmed because they would not have purchased the Products on the same terms if they knew that the Products contained benzene and are not generally recognized as safe.

48. On December 23, 2021, prior to filing this action, Defendant was served with a

pre-suit notice letter on behalf of Plaintiff that complied in all respects with U.C.C. §§ 2-313 and 2-607. Plaintiff's counsel sent Defendant a letter advising Defendant that it breached an express warranty and demanded that Defendant cease and desist from such breaches and make full restitution by refunding the monies received therefrom. A true and correct copy of Plaintiff's counsel's letter is attached hereto as **Exhibit 1**.

**COUNT II**  
**Breach of Implied Warranty**

49. Plaintiff incorporates by reference and re-alleges each and every allegation set forth in paragraphs 1-43 above as though fully set forth herein.

50. Plaintiff brings this claim individually and on behalf of the members of the proposed Classes against Defendant.

51. Defendant, as the designer, manufacturer, marketer, distributor, and/or seller, impliedly warranted that the Products (i) would not contain elevated levels of benzene and (ii) are generally recognized as safe for human use.

52. Defendant breached the warranty implied in the contract for the sale of the defective Products because they could not pass without objection in the trade under the contract description, the Products were not of fair or average quality within the description, and the Products were unfit for their intended and ordinary purpose because the Products manufactured, distributed, and sold by Defendant were defective in that they contained elevated levels of carcinogenic and toxic benzene, and as such are not generally recognized as safe for human use. As a result, Plaintiff and members of the Classes did not receive the goods as impliedly warranted by Defendant to be merchantable.

53. Plaintiff and members of the Classes purchased the Products in reliance upon Defendant's skill and judgment and the implied warranties of fitness for the purpose.

54. The Products were not altered by Plaintiff or members of the Classes.

55. The Products were defective when they left the exclusive control of Defendant.

56. Defendant knew that the Products would be purchased and used without additional testing by Plaintiff and members of the Classes.

57. The Products were defectively manufactured and unfit for their intended purpose, and Plaintiff and members of the Classes did not receive the goods as warranted.

58. As a direct and proximate cause of Defendant's breach of the implied warranty, Plaintiff and members of the Classes have been injured and harmed because: (a) they would not have purchased the Products on the same terms if they knew that the Products contained harmful levels of benzene and are not generally recognized as safe for human use; and (b) the Products do not have the characteristics, ingredients, uses, or benefits as promised by Defendant.

59. On December 23, 2021, prior to filing this action, Defendant was served with a pre-suit notice letter on behalf of Plaintiff that complied in all respects with U.C.C. §§ 2-313 and 2-607. Plaintiff's counsel sent Defendant a letter advising Defendant that it breached an implied warranty and demanded that Defendant cease and desist from such breaches and make full restitution by refunding the monies received therefrom. A true and correct copy of Plaintiff's counsel's letter is attached hereto as **Exhibit 1**.

**COUNT III**  
**Violation Of New York General Business Law § 349**

60. Plaintiff incorporates by reference and re-alleges each and every allegation set forth in paragraphs 1-43 above as though fully set forth herein.

61. Plaintiff brings this claim individually and on behalf of the members of the proposed Classes against Defendant.

62. GBL § 349 prohibits deceptive acts or practices in the conduct of any business, trade, or commerce.

63. In its sale of goods throughout the State of New York, Defendant conducts business and trade within the meaning and intendment of GBL § 349.

64. Plaintiff and members of the Subclass are consumers who purchased products from Defendant for their personal use.

65. By the acts and conduct alleged herein, Defendant has engaged in deceptive, unfair, and misleading acts and practices, which include, without limitation, misrepresenting that the Products (i) would not contain dangerously high levels of benzene, and (ii) are generally recognized as safe for human use. Defendant also materially omitted key facts regarding the true nature of the Products, specifically that the Products contained dangerous levels of benzene, were adulterated, and were unsafe for their intended use. Had Plaintiff and members of the Subclass been apprised of these facts, they would have been aware of them and would not have purchased the Products.

66. The foregoing deceptive acts and practices were directed at consumers.

67. The foregoing deceptive acts and practices are misleading in a material way because they fundamentally misrepresent the characteristics and quality of the Products to induce consumers to purchase the same. No reasonable consumer would knowingly purchase the Products had they known that the Products contained high levels of a known carcinogen and reproductive toxin and that the Products were illegal to purchase or sell.

68. By reason of this conduct, Defendant engaged in deceptive conduct in violation of GBL § 349.

69. Defendant's actions are the direct, foreseeable, and proximate cause of the

damages that Plaintiff and members of Subclass have sustained from having paid for and used Defendant's Products.

70. As a result of Defendant's violations, Plaintiff and members of the Subclass have suffered damages because: (a) they paid a premium price in the amount of the full purchase price of the Products based on Defendant's deceptive conduct; and (b) the Products do not have the characteristics, uses, benefits, or qualities as promised.

71. On behalf of herself and other members of the Subclass, Plaintiff seeks to recover her actual damages or fifty dollars, whichever is greater, three times actual damages, and reasonable attorneys' fees.

**COUNT IV**  
**Violation Of New York General Business Law § 350**

72. Plaintiff incorporates by reference and re-alleges each and every allegation set forth in paragraphs 1-43 above as though fully set forth herein.

73. Plaintiff brings this claim individually and on behalf of the members of the proposed Classes against Defendant.

74. GBL § 350 prohibits false advertising in the conduct of any business, trade, or commerce.

75. Pursuant to said statute, false advertising is defined as "advertising, including labeling, of a commodity ... if such advertising is misleading in a material respect."

76. Based on the foregoing, Defendant has engaged in consumer-oriented conduct that is deceptive or misleading in a material way which constitutes false advertising in violation of GBL § 350.

77. Defendant's false, misleading, and deceptive statements and representations of fact were and are directed towards consumers.

78. Defendant's false, misleading, and deceptive statements and representations of fact were and are likely to mislead a reasonable consumer acting reasonably under the circumstances.

79. Defendant's false, misleading, and deceptive statements and representations of fact have resulted in consumer injury or harm to the public interest.

80. Defendant also materially omitted key facts regarding the true nature of the Products, specifically that the Products contained dangerous levels of benzene, were adulterated, and were unsafe for use as deodorants. Had Plaintiff and members of the Classes been apprised of these facts, they would have been aware of them and would not have purchased the Products.

81. As a result of Defendant's false, misleading, and deceptive statements and representations of fact, Plaintiff and the Classes have suffered and continue to suffer economic injury.

82. As a result of Defendant's violations, Plaintiff and members of the Classes have suffered damages due to said violations because: (a) they paid a premium price in the amount of the full purchase price of the Products based on Defendant's deceptive conduct; and (b) the Products do not have the characteristics, uses, benefits, or qualities as promised.

83. On behalf of herself and other members of the Classes, Plaintiff seeks to recover her actual damages or five hundred dollars, whichever is greater, and reasonable attorneys' fees and costs of suit.

**COUNT V**  
**Violation Of The Florida Deceptive And Unfair Trade Practices Act,**  
**Fla. Sta. §§ 501.201, *et seq.***

84. Plaintiff incorporates by reference and re-alleges each and every allegation set forth in paragraphs 1-43 above as though fully set forth herein.

85. Plaintiff brings this claim individually and on behalf of the members of the proposed Subclass against Defendant.

86. FDUTPA renders unlawful unfair methods of competition, unconscionable acts or practice, and unfair or deceptive acts or practices in the conduct of any trade or commerce. Fla. Stat. § 501.204.

87. Among other purposes, FDUTPA is intended “[t]o protect the consuming public and legitimate business enterprises from those who engage in unfair methods of competition, or unconscionable, deceptive, or unfair acts or practices in the conduct of any trade or commerce.” Fla. Stat. § 501.202.

88. FDUPTA can be violated in two ways, both of which are relevant to this case. First, Defendant has committed a “traditional” violation of FDUPTA by engaging in unfair and/or deceptive acts and practices which caused injury to Plaintiff and members of the Subclass.

89. Second, Defendant has committed a *per se* violation of FDUPTA predicated on a violation of the FDCA. Specifically, by selling adulterated and misbranded Products which is *per se* illegal in violation of 21 U.S.C. § 351 and 21 U.S.C. § 352 of the FDCA, and because the FDCA is designed to protect consumers from harmful and dangerous drugs, Defendant has committed *per se* violations of FDUPTA. Fla. Stat. Ann. § 501.203(3)(c) (explaining that a FDUPTA violation may be based on “[a]ny law, statute, rule, regulation, or ordinance which proscribes unfair methods of competition, or unfair, deceptive, or unconscionable acts or practices.”).

90. While FDUPTA does not define “deceptive” or “unfair,” Florida courts have looked to the Federal Trade Commission’s interpretations for guidance. “[D]eception occurs if there is a representation, omission, or practice that is likely to mislead the consumer acting

reasonably in the circumstances, to the consumer's detriment." *Lombardo v. Johnson & Johnson Consumer Companies, Inc.*, 124 F. Supp. 3d 1283, 1287 (S.D. Fla. 2015) (internal quotation marks and citation omitted). Courts define a "deceptive trade practice" as any act or practice that has the tendency or capacity to deceive consumers. *Fed. Trade Comm'n v. Partners In Health Care Ass'n, Inc.*, 189 F. Supp. 3d 1356, 1367 (S.D. Fla. 2016). Courts define an "unfair trade practice" as any act or practice that "offends established public policy and one that is immoral, unethical, oppressive, unscrupulous or substantially injurious to consumers." *Kenneth F. Hackett & Assocs., Inc. v. GE Capital Info. Tech. Sols., Inc.*, 744 F. Supp. 2d 1305, 1312 (S.D. Fla. 2010).

91. Defendant engaged in conduct that is likely to deceive members of the public. This conduct includes representing that the Products contained only the ingredients listed in the label, which is untrue, and failing to make any mention that the Products contained harmful levels of benzene and were adulterated and misbranded.

92. As alleged herein, Plaintiff has suffered injury in fact and lost money as a result of Defendant's conduct because she purchased the Products from Defendant in reliance on Defendant's representation that the Products were safe and effective and not contaminated with benzene, as well as Defendant's material omissions regarding the true nature of the Products.

93. As alleged herein, Defendant's actions are deceptive and in clear violation of FDUTPA, entitling Plaintiff and the Subclass to damages and relief under Fla. Stat. §§ 501.201-213.

94. By committing the acts alleged above, Defendant engaged in unconscionable, deceptive, or unfair acts or practices, which constitute unfair competition within the meaning of FDUTPA.

95. Defendant's conduct is substantially injurious to consumers. Consumers are purchasing and using Defendant's Products without knowledge that the Products are adulterated with a human carcinogen. This conduct has caused, and continues to cause, substantial injury to consumers because consumers would not have paid for the Products, which are contaminated with benzene, but for Defendant's false labeling, advertising, promotion, and material omissions. Thus, Plaintiff and the Subclass have been "aggrieved" (*i.e.*, lost money) as required for FDUTPA standing, and such an injury is not outweighed by any countervailing benefits to consumers or competition.

96. Indeed, no benefit to consumers or competition results from Defendant's conduct. Because consumers reasonably rely on Defendant's representation of the ingredients contained on Products' label and injury resulted from ordinary use of the Products, consumers could not have reasonably avoided such injury.

97. Further, Defendant's conduct is ongoing and continuing, such that prospective injunctive relief is necessary. Plaintiff desires to purchase Defendant's Products in the future if she can be assured that the Products are not adulterated or misbranded and meet the advertising claims on the Products' label.

**COUNT VI**  
**Fraud**

98. Plaintiff incorporates by reference and re-alleges each and every allegation set forth in paragraphs 1-43 above as though fully set forth herein.

99. Plaintiff brings this claim individually and on behalf of the members of the Classes against Defendant.

100. Defendant made fraudulent misrepresentations to Plaintiff and members of the Classes regarding the Products, specifically that the Products contained only the active and

inactive ingredients stated on the label, and not harmful impurities such as benzene. Defendant also materially omitted facts from Plaintiff and members of the Classes, including that the Products in fact contained harmful levels of benzene.

101. Defendant had a duty to disclose material facts to Plaintiff and the Classes given their relationship as contracting parties and intended users of the Products. Defendant also had a duty to disclose material facts to Plaintiff and the Classes, namely that it was in fact manufacturing, distributing, and selling harmful products unfit for human use, because Defendant had superior knowledge such that the transactions without the disclosure were rendered inherently unfair.

102. Defendant knew or should have known that the Products were contaminated with benzene, but continued to manufacture the Products nonetheless. Defendant was required to engage in impurity testing to ensure that harmful impurities such as benzene were not present in the Products. Had Defendant undertaken proper testing measures, it would have been aware that the Products contained dangerously high levels of benzene. During this time, Plaintiff and members of the Classes were using the Products without knowing it contained dangerous levels of benzene.

103. Defendant failed to discharge its duty to disclose these material facts.

104. In so failing to disclose these material facts to Plaintiff and the Classes, Defendant intended to hide from Plaintiff and the Classes that they were purchasing and using the Products with harmful defects that were unfit for human use, and thus acted with scienter and/or an intent to defraud.

105. Plaintiff and the Classes reasonably relied on Defendant's failure to disclose insofar as they would not have purchased the defective Products manufactured and sold by Defendant had they known they contained unsafe levels of benzene.

106. As a direct and proximate cause of Defendant's material misrepresentations and omissions, Plaintiff and the Classes suffered damages in the amount of monies paid for the defective Products.

107. As a result of Defendant's willful and malicious conduct, punitive damages are warranted.

**COUNT VI**  
**Unjust Enrichment**

108. Plaintiff incorporates by reference and re-alleges each and every allegation set forth in paragraphs 1-43 above as though fully set forth herein.

109. Plaintiff brings this claim individually and on behalf of the members of the Classes against Defendant.

110. Plaintiff and the Classes conferred a benefit on Defendant in the form of monies paid to purchase Defendant's defective and worthless Products.

111. Defendant voluntarily accepted and retained this benefit.

112. Because this benefit was obtained unlawfully, namely by selling and accepting compensation for products unfit for human use, it would be unjust and inequitable for Defendant to retain the benefit without paying the value thereof.

**PRAYER FOR RELIEF**

WHEREFORE, Plaintiff respectfully requests, individually and on behalf of the alleged Classes, that the Court enter judgment in her favor and against Defendant as follows:

- (a) For an order certifying the Classes under Rule 23 of the Federal Rules of Civil Procedure, naming Plaintiff as the representative for the Classes, and naming Plaintiff's attorneys as Class Counsel;
- (b) For an order declaring that Defendant's conduct violates the causes of action referenced herein;
- (c) For an order finding in favor of Plaintiff and the Classes on all counts asserted herein;
- (d) For compensatory, statutory, and punitive damages in amounts to be determined by the Court and/or jury;
- (e) For prejudgment interest on all amounts awarded;
- (f) For an order of restitution and all other forms of equitable monetary relief;
- (g) For injunctive relief as pleaded or as the Court may deem proper; and
- (h) For an order awarding Plaintiff and the Classes their reasonable attorneys' fees and expenses and costs of suit.

**DEMAND FOR JURY TRIAL**

Pursuant to Federal Rule of Civil Procedure 38(b), Plaintiff demands a trial by jury of any and all issues in this action so triable as of right.

Dated: December 27, 2021

Respectfully Submitted,
